Brooklyn Village Board Meeting Minutes January 15, 2019

The January 15, 2019 Village Board meeting of the Village of Brooklyn was called to order at 6:30 p.m. at the Brooklyn Village Hall by President Clayton Schulz. Trustees present were Heather Kirkpatrick, Scott Rosenow, Kyle Smith and Sue McCallum. Trustees Todd Klahn and Brit Springer were absent. Others present were Dustin Palenshus, Chief Engelhart and Clerk-Treasurer Linda Kuhlman. All present stood for the Pledge of Allegiance.

Public Comments – Dustin Palenshus spoke about the winter parking situation. He lives on Pine and had asked the board previously to have cement poured so he can drop the lift in his van into the terrace, which was approved. He stated he has to move the van in and out because the driveway is too steep, and he can't access the van lift in the driveway. Rosenow has heard comments from other neighbors that have adult-aged or driving-aged children, that the whole driveway can be taken up by cars. It would be helpful to park some in street and have alternate or parking on both sides.

Schulz suggested moving up the discussion on the **winter parking ordinance**. Kuhlman stated Klahn and the PW director would like to make some comments but couldn't be present for this meeting. Kirkpatrick said historically the problem is some streets don't have even and odd sides, but there are different ways to approach this problem. You can have north-south or east-west. Rosenow had people approach him about this issue. He would like to repeal the winter parking ordinance, because there's another ordinance that allows the president to declare a snow emergency. Another problem is the ordinance restricts no parking from 1 a.m. to 7 a.m. from mid-November to mid-April, but it can snow other times. Repealing the ordinance is his preference. The next best alternative is alternate-side parking. It was suggested to maybe have the police or Public Works or both do a little research and investigation and figure out which streets are wide enough to allow parking in winter and which ones are not wide enough and figure out if those are actually odd and even, and if not, figure out some other wording. Kirkpatrick said there are some communities where residents apply and pay for a sticker to allow them to park. Rosenow thinks snow removal is the only reason for this ordinance. The snow plow has gone down his street 3-4 this whole winter so far. He doesn't think it's necessary or practical and causes problems. Kuhlman asked how we would alert residents that a snow emergency was declared. Rosenow said with technology these days, it's easier to know when snow is coming. Being this is a small village, it might be easier if there's a parking problem, to contact residents and tell them to move their car. Kirkpatrick said that's not practical if they're plowing at 3 a.m. She doesn't agree that just because forecast says it, it's going to happen. She would like to bring in Public Works and discuss how this would work logistically. Smith said there are bigger cities that have completely no parking. McCallum said the whole point of not being on the street from 1 a.m. to 7 a.m. is to plow back to the curb instead of coming back and doing it again. She would like to know if we enough staff to plow all night and the next day when cars move and what does that equate in dollars. She's not opposed to alternate side, but there needs to be some control over it. Schulz suggested it would be good for the whole board, the police department and Public Works be present for discussions. **Schulz made a motion to postpone action on the winter parking ordinance.** Kirkpatrick seconded. Motion carried.

Special event application for CATP – Schulz stated police, PW, fire and EMS approved. Engelhart said he questioned why they want to be in the park until 2 a.m. Kuhlman stated Hawkey wanted the extra time for cleanup in case they get a lot of people and need extra time to get things cleaned up. McCallum suggested approving it this year, and if there is an issue, the board might not allow the extra time next year. Kirkpatrick said the board doesn't have to allow the PA system to run later. The ordinance has no set time limit; it's up to Village Board. Board discussed options. **Schulz made a motion to approve the special event permit application for CATP with the stipulation no use of amplification devices between the hours of midnight and 6 a.m.** McCallum seconded. Motion carried. McCallum asked PD staff to monitor.

Special event application for Grill for a Cause – Kuhlman stated Grill for a Cause is a grilling contest that's been in the park for the last two years, but it's getting bigger. They will have vendors and food carts this year. Smith stated with an estimated 150 people attending, they will need to get portable toilets. **Schulz made a motion to approve the special event permit application for Grill for a Cause on 5-18-19 with the stipulation they provide two portable toilets due to estimated attendance level.** Kirkpatrick seconded. Motion carried.

McCallum made a motion to approve minutes of 12-10-18. Schulz seconded. Motion carried. Rosenow abstained. **Schulz made a motion to approve minutes of 12-12-18.** Smith seconded. Motion carried. McCallum abstained.

President's Report – Schulz hoped everyone had a good holiday. The next meeting, January 28, will be his last. He is resigning. He will submit a formal letter at the next meeting.

Clerk's Report -- December Financials – deposits for December totaled \$1,266,354.51. Of that total, \$984,813.46 were taxes collected. About 59% of total taxes from each county have been collected. We had loan proceeds of \$183,870 for the squad and loader. We received the \$24,000 from Green County Highway Commission matching funds for the S. Kerch Street project. The approximately \$54,000 of LRIP reimbursement will be applied for after the total completion of the project. Total expenses for the month of December were \$601,374.65. Of that total, \$375,778.03 was a payment to McGuire for S. Kerch Street, \$122,790 was paid to Miller Bradford for the loader and snow pusher, which was picked up today. There was a total in all accounts at the end of December of \$2,331,144.56. January tax settlement has been paid. \$91,129.15 was paid to Green County, \$146,774.65 was paid to Dane County, \$677,495.73 was paid to Oregon School District, \$54,137.34 was paid to Madison College, \$514,991.19 was retained by the Village.

Kuhlman spoke with Josh Worrell of **TDS regarding fiber service** to Brooklyn. He said they have no plans to expand to Brooklyn in the next three years. The Village would need to be willing to offer a financial incentive to offset the cost of the build. If Village is willing to offer financial incentive, he can begin the process. The first step is finding out if TDS has any interest in pursuing service here. If they do, then they will open an architectural design to find out a high-level cost, which they will then use to calculate what the Village would need to contribute. He offered three different hypothetical scenarios. Part of the cost is getting the fiber into the Village and back out. They could extend Oregon into Brooklyn but then would have to loop out of Brooklyn back into the Madison ring so they have a complete loop. This provides more reliable service. McCallum suggested going to the Legislature, because there's millions of dollars that were given to these companies to expand fiber and there's a line that dead-ends at the village. She would like to send a letter to elected representatives and ask for assistance. Schulz suggested McCallum write the letter.

We received **three nomination papers for the Village President office and two papers for trustees**. Candidates for President are Brit Springer, Jim Bakken and Kyle Smith. We will need to have a **primary election on February 19** for the president. Candidates for trustee are Todd Klahn and Heather Kirkpatrick. There is still an empty trustee position. Candidates have until March 29 to register as a write-in. For the trustee position, all write-ins will be counted. For the president position, only registered write-ins will be counted.

We've had discussions with the **FEMA representative**. The pump expense for Lincoln Street pond won't be eligible because it's under their minimum. We have put in paperwork for the sewer lining on W. Main Street. The representative will be coming to the Village to meet with us. The **DNR representative** who reviewed our Clean Water Fund application sent an email to Travis Anderson at Strand reviewing our initial request of funds, the start and completion dates, the method of pledge, either sewer or GO, our outstanding sewer revenue bonds and the need for a sewer rate increase, which needs to be effective prior to the closing of the CWF. **He asked what the status of the rate increase is**. Anderson informed him the board will be making that decision after we receive the bids. Anderson also informed us that he will be on vacation for the February 11 board meeting. Spilde and Kuhlman will meet with Anderson and Greg Johnson from Ehlers on February 5 to discuss the bids and our options for the loan. He said Straka can come to the February 11 meeting to discuss the bids, loan options, etc., or we can wait for him to come to the February 25 meeting. The board asked that Straka come on the 11th and Anderson come on the 25th.

Kuhlman went to the **Green County Development Corporation** meeting in December to inform them we are joining for 2019. They were excited to have us back. The meetings are the 3rd Thursday of the month at 7:30 a.m. at the old courthouse in Monroe. The board packets include December's meeting agenda and financials and the agenda for January's meeting on this Thursday, the 17th. Kuhlman asked if the board would like her to go to the meetings or do they want to appoint a board member to attend. Kirkpatrick said historically it's been the president or EDC member. McCallum said Kuhlman should go to next one since it's this week, and then the board will decide for future meetings.

Kuhlman is waiting to hear back from Pedro Ruiz at **CDBG** on when they want us to attend their meeting with an update on the Business Park. **Schulz made a motion for Kuhlman to attend the Ehlers public finance seminar in Wisconsin Dells on February 7 and 8, with one-night hotel**. Kirkpatrick seconded. Motion carried. **Kirkpatrick made a motion for Olson to attend the UW-Green Bay Clerk's Institute in July**. McCallum seconded. Motion carried.

Safety - Chief's Report – December had 140 total calls, 119 handled by Brooklyn PD, 15 by Green County and 6 by Dane County. Had three open records, one EMS assist, 6 assist counties and others, 22 parking tickets issued and 20 were for winter parking. Chief Engelhart was approached by residents who attend the community lunch at Methodist Church about the ride-share people parking in lot. They're not parking within the stalls. He noticed it also. He spoke with the ride-share people about this issue. On the 1st and 15th they had **DAT training** in the Village. They will continue having the 4-hour block training groups here in the Village. Johnson attended **ARIDE training** on 5th and 6th at Blackhawk Tech. **The new squad is striped.** It will be going in to on 28th to Gencom to set up.

Schulz and McCallum reviewed bills. Regarding the Penflex bills for the Service Award Program for fire and EMS, McCallum stated there is one person listed as being on the fire department who she hasn't seen at any of the meetings. She will address this at the next district meeting and verify the members on the list. McCallum recommended not paying both Penflex bills until the list is confirmed. The UW Hygiene Lab bill had the wrong date, so it didn't show up on the list. **McCallum made a motion to approve bills, excluding 10620 and 10621.** Schulz seconded. Bills approved.

Kirkpatrick made a motion to approve Strand's Agreement for Technical Services for the WWTP upgrade. Schulz seconded. Motion carried.

Fire/EMS District Commission – McCallum brought forward our input regarding the **unallocated cash balance.** It will be put on the agenda for the annual meeting. **New district secretary-treasurer** was hired, Sarah Andrisevic. The Commission appointed Van Norman as **assistant secretary-treasurer** for 2019. Schulz asked if there's a timeline on Van Norman's appointment. McCallum stated she will be the assistant for one year, with most of the training in January and February and on-call throughout the year as questions arise. Schulz stated there was nothing in the budget for an assistant. McCallum will bring it up at the next meeting. McCallum said Andrisevic will work most hours from home. Kirkpatrick would like a mechanism for documenting her time. McCallum will look into it. The Commission also discussed **purchasing a cell phone for the secretary-treasurer** at a cost of \$38/month. The Fire Department members elected a **new Fire Chief, Mason Barber.** **Dan Dean remains as EMS Director.** Dean asked that any unused funds from the 2018 budget be used to fund a program through the **Family Resource Center** in Madison. It would cost about \$1,100-1,200 and any member will be allowed five sessions per year. Smith asked if there's a similar program provided for free through Green County. McCallum will take it to the board. **The 2018 final reports** should be presented at the meeting tomorrow. **O'Brien was appointed district board president and Marx as vice president.**

Recreation and Personnel Committee reports postponed to next meeting.

Schulz made a motion to adjourn at 7:45 p.m. Smith seconded. Motion carried.

Linda Kuhlman
Clerk-Treasurer

Brooklyn Village Board Meeting Minutes January 28, 2019

The January 28, 2019 Village Board meeting of the Village of Brooklyn was called to order at 6:30 p.m. at the Brooklyn Village Hall by President Clayton Schulz. Trustees present were Heather Kirkpatrick, Scott Rosenow and Brit Springer. Trustees Todd Klahn, Sue McCallum and Kyle Smith were absent. Others present were Greg Stahl, Buffy Stahl, Chief Engelhart, Public Works Director Leif Spilde and Clerk-Treasurer Linda Kuhlman. All present stood for the Pledge of Allegiance.

Public Comments – Greg Stahl – he received a letter from GEC, the building inspector, giving him a deadline to finish the building and that his permit expired. He said GEC has tried to enforce a 12-month permit. The law states it's a 24-month permit. He brought the statute saying it's a 24-month permit. He's received information from the State review board that the siding has to be on a building by the end of 24 months. His entryway is not complete, but the state has told him that's

not considered part of the building. He can't find anything giving him a timeline, except for the 24-month where siding has to be completed. Furthermore, he has a letter from the state citing Wisconsin Statute 361.36 that state approval expires 3 years after the approval date. He stated he dropped the letter from the state off at the village. He believes GEC is putting an artificial deadline for completion. He personally believes the building inspector is outside his bounds by issuing this letter. The most conservative date would be May 18, 2019, where the building has to be complete. Kirkpatrick stated she appreciates him bringing forward the information. The board will follow up.

Approval of 1/15/19 minutes were postponed.

President's report – Schulz stated at the end of January he will be relocating to a new community, so he is offering his letter of resignation effective January 30, 2019. He thanked the board, Village staff and the residents for working with him over the past 2 years. **Due to lack of majority of trustees, the appointment of interim president and check signing authorization were postponed to the next meeting.**

Schulz moved up the discussion on the **state providing commercial electrical inspections versus GEC continuing to provide the inspections**. Starting in 2020, the state will require commercial electrical permits and inspections. Each municipality has the option to allow the state to provide the inspectors, and therefore, the municipality is not involved; or the municipality can contract with an inspector. The board reviewed the letter from GEC. Schulz stated he would be in favor of GEC continuing to perform the task. Kirkpatrick stated Stahl's is not the first complaint she's heard about GEC. So for her that's a concern, given the recent situation. She doesn't like the way the GEC letter to Stahl was written. She doesn't like that that's the face of our representation. In her opinion, it was handled in very poor judgment. Rosenow is leaning toward the state option. Kirkpatrick would like the board to solicit some other residents and see what response they get. She would like to get some other residents to come in and GEC to come in to either a special session of the board or write something. **The board will postpone action on the commercial electrical inspections.**

Board moved up discussion on **the winter parking ordinance**. Schulz asked if there were any thoughts or if the board wanted to wait for more of the board trustees to be present. Kirkpatrick said the board has to think about how parking on alternate sides of the street would work. She asked Public Works and the Police Department to use a map and decide which streets are not a good option for alternate parking, so the board can decide. Springer asked about overtime pay for PW to be out twice. Kirkpatrick also stated they can declare a snow emergency and have alternate side suspended. Rosenow said other board members would like to speak. He would ask Public Works and the Police Department write up something about which streets are too narrow or if there are streets where one side parking won't work. Spilde stated if the board changes the ordinance, they should put a policy in place for snowplowing, that a snow emergency is declared at so many inches of snow. Spilde will start working on that. Engelhart stated he won't be available at the February 11 meeting. Spilde stated the next few meetings will be busy with phosphorus discussions. Kirkpatrick said the board probably won't get to this until March.

Schulz informed the board that today the Governor declared a State of Emergency for the whole state due to the winter storm with heavy snowfall, bitter and potentially life-threatening temperatures, extreme wind chill values and blowing and drifting snow. Schulz also declared a **State of Emergency for the Village** in case we have problems due to the storm. He read the Village's Declaration of State of Emergency.

Clerk's Report – Clerk attended the **GCDC meeting** in January. Next meeting is February 21, if the board would like to decide who will attend the meeting. The annual GCDC meeting is April 24. There will be a rural broadband summit on May 15. Clerk contacted Pedro Ruiz at **CDBG**. She was asked to send an email update that he could take to the commission, and if they had further questions, he would let us know. Kevin Visel, the broker, sent updated information. He has the properties listed on about 15 different sites, and he has seen about 1700 hits and about 10 showings or direct inquiries. Clerk has been speaking with **Blackhawk Technical College about different courses** that they offer for leadership, trainings, etc. They are setting up a coalition that they might be able to offer these courses at reduced rates to municipalities. She will keep board informed. Kirkpatrick suggested contacting the UW Small Business Department about leadership courses. There's a new reporting requirement for **GASB 75 in audits regarding OPEB**, other post-employment benefits. It has to do with offering health insurance benefits. We need to do an **actuarial report** for this requirement. We received a quote from Key Benefits, referred to us by Johnson Block, of \$1,400 for the review and \$950 for a full report or \$350 for a written report. Kuhlman contacted other clerks and discovered this is about the lowest quote anyone has

received. **Kirkpatrick made a motion to approve the Key Benefits quote for audit actuarial reporting for GASB 75.** Schulz seconded. Motion carried. Kuhlman also stated there might be an additional report needed next year at a price of \$465. **Whitebox** is in the final stage for the Police Department data conversion. They have Oregon's finished and have all the information they need for ours to be completed in the next few weeks.

Public Works Report – Spilde stated the DNR requires that he inform the board of what we've done in the sanitary sewer system for maintenance over the years. The big thing is the age of the utilities. The entire system was put in in the late 40s. 48% of the system is 64 years old. Pipe life expectancy is 30 years. Village did a great job by replacing S. Kerch Street area. We added 3% to our total from this. 2019 we will do W. Main Street relining. Lift stations, no pump failures this last year. They are identifying problems with TV'ing lines. **Utility Report** – Had the second broken water main this past Saturday. The seasonal residents started running water on December 27. Due to the weather, the bid opening for WWTP upgrades was changed to February 5. He has a meeting with two possible farmers regarding WQT. The new cover was installed on the clarifier in December. They completed the WET test on January 7 but have not heard back. The SCADA computer hard drive went out. There is a backup, but they did install a new hard drive. The computer is 4-1/2 years old, so he will be discussing an upgrade in the future. **Emergency Management Report** -- The Village did not meet the FEMA threshold for pumping of the pond, and the W. Main Street lining repair is in Green County so it isn't eligible. They're working on fixing the siren. The new snow pusher arrived on January 14. **Year-End Reports** - includes major events that happened last year that were on the monthly reports. Kirkpatrick asked if there is a potential for flooding with the potential rain on Sunday. Spilde stated they have been pushing snow out of the way to make room for more and they will try to make sure all storm sewers are open. Spilde stated the community building will be unlocked this week for anyone needing a warm place. The Police Department and PW will be around to monitor. The board asked that cold weather tips be posted on the Village Facebook page and website for residents. Spilde asked if he could attend a one-day \$80 government affairs seminar and if he needs to get approval from the board for future trainings. Kirkpatrick said to use best judgment and the board can approve post if it's a timing issue. **Schulz made a motion to approve Spilde attending the Wisconsin Government Affairs seminar at a cost of \$80 for one day.** Kirkpatrick seconded. Motion carried.

Schulz made a motion at 7:20 p.m. to convene into closed session pursuant to WI Stats 19.85(1)(c) for the purpose of considering employment, promotion, compensation or performance evaluation data of a public employee over which the governmental entity has jurisdiction or exercises responsibility (Public Works). Kirkpatrick seconded. AYES – Schulz, Rosenow, Kirkpatrick and Springer. NOES – none.

Schulz made a motion at 7:29 to reconvene to open session. Kirkpatrick seconded. AYES – Schulz, Rosenow, Kirkpatrick and Springer. NOES – none.

Schulz and Springer reviewed the bills. **Schulz made a motion to approve the bills as presented.** Kirkpatrick seconded.

Fire/EMS Update – Kuhlman stated the fire department has formed a committee to discuss getting a new fire engine. The one they're looking to replace is 27 years old. They are establishing a new credit card for Chief Barber. They will be purchasing new cell phones and tablet for the fire department. They will also purchase a new cell phone for the clerk, who attended her first meeting. They will be looking into purchasing a new cell phone for EMS as well. Van Norman will be training for a few months and will stay on-call for the remainder of the year. The board will discuss where the funds are to pay her at the next meeting. They are purchasing a new desk for the district secretary. The district secretary will receive a new credit card. Marx is working on the records retention policy, and it is currently at the State being approved. Dan Dean requested a committee be established to discuss merging the fire and EMS departments and how that would work. Marx and O'Brien will be part of that committee, along with members of the departments.

Recreation – did not meet last week because they didn't have a quorum. Movie night is this Saturday. There will be a yoga class on Saturday, February 9, and they will have essential oils in conjunction from 10-11:30 a.m. **Springer made a motion to approve the 11-1-18 recreation minutes and 12-13-18 recreation minutes.** Kirkpatrick seconded. Motion carried.

Schulz made a motion at 7:34 p.m. to adjourn. Kirkpatrick seconded. Motion carried.

Linda Kuhlman
Clerk-Treasurer

VILLAGE MARKET REVALUATION ASSESSMENT - 2019

To maintain fair and equitable assessments, the Village of Brooklyn has implemented a Market Revaluation Assessment process, meaning all assessments will be brought to market value in 2019. The last time assessments were brought to market value was five years ago in 2014. In that five-year time period between revaluations, the market value of residential property has changed greatly.

For more information, call the clerk's office at 608-455-4201. Or go to the Village website at www.brooklynwi.gov under the Clerk's tab for a list of FAQs.

PUBLIC WORKS DEPARTMENT

As you are clearing your sidewalks please remember to clear a path to the fire hydrant near your home.

No Parking on Village Streets from 1 am – 7 am until April 15th except for designated areas.

See www.brooklynwi.gov for map and specific streets.

News from Your Senior Center

February 2019

POLICE DEPT

By Rachel Brickner

If you looked at the bulletin board in the Main Hall of the Senior Center this month, you would see a polar bear parked on his back, big belly pointed at the sky, blissfully sleeping. Above him are the words: "Only bears should hibernate in winter".

The other half of the bulletin board has the header: "There are lots of options to keep moving". Below that header, the options for exercise of various sorts, at the Senior Center, the pool, and the school are listed. There really are a lot of choices for getting exercise, even in the winter months. One of the most important things you can do for yourself is to find a form of exercise that you like well enough that you will keep doing it. For some people that means finding a group to exercise with that is having so much fun they don't even realize they are working out. For others, it is finding a type of exercise that they love. Regardless of what motivates you, you really do need to keep moving.

There are many kinds of exercise classes available at the Senior Center. StrongWomen helps women fight the loss of muscle mass that comes with age. It is a great class for people who not only are trying to maintain muscle, but also for women who are concerned about bone loss. Working with free weights, as they do in StrongWomen, builds bone as well as muscle.

If your balance isn't what it should be (and really, whose is?) there are balance classes at the Senior Center a couple of times each week. Taught by Stoughton Hospital physical therapists, the balance class can help people improve on one of the most important physical abilities people need to remain independent and in their homes. Better balance means fewer falls.

The Senior Center offers a class specifically geared to people with a diagnosis of Parkinson's disease. Also taught by Stoughton Hospital physical therapists, this class is tailored to providing exercises based on the latest research about Parkinson's disease and movement.

Zumba Gold and Zumba Gold Advanced are offered several times each week for people who want an aerobic workout and the fun of exercising to music in a very social group.

Those options, along with pickle ball and indoor walking at the High School, and water exercise at the pool, provide seniors with a lot of choices for keeping active in the winter. If you have questions about any of the choices available to you, please call us at the Senior Center at 835-5801. Your body will appreciate it!
