Spring Clean Up Dumpsters

**Village Residents Only.
Bring ID Proof.**

Fri. May 10th- 2 pm – 7 pm
Sat. May 11th- 10 am – 4 pm
Sun. May 12th- 10 am – 2 pm
Mon thru Fri - 2 pm – 7 pm
(May 13th – 17th)
Sat. May 18th- 10 am – 4 pm
Sun. May 19th- 10 am – 2 pm

Dumpsters will be located at the Treatment
Plant – Windy Lane
(S. end of Village on Hwy 104)

ITEMS THAT ARE NOT ALLOWED

- GRASS/WEEDS/BRUSH/LEAVES
- FLUORESCENT BULBS & FIXTURES
- RECYCABLES (CARDBOARD OR BOXES) PLASTICS/GLASS/TIN CANS/BOTTLES
- 55 GALLON BARRELS/DRUMS
- PAINT
- ELECTRONICS/COMPUTERS/TV'S
- HAZARDOUS/INFECTIOUS MATERIALS OR THEIR CONTAINERS
- ** OIL, BATTERIES, TIRES
- ** APPLIANCES

**** NOTE:** Oil & batteries can be brought in and placed in a separate area. No Freon or hazardous containing appliances (refrigerators, ac units, etc.) microwaves or dehumidifiers. Other appliances can be placed in the recycling dumpster.

Brooklyn Village Board Meeting Minutes
March 11, 2019

The March 11, 2019 Village Board meeting of the Village of Brooklyn was called to order at 6:32 p.m. at the Brooklyn Village Hall by President Todd Klahn. Trustees present were Scott Rosenow, Brit Springer, Sue McCallum and Kyle Smith. Trustee Heather Kirkpatrick was absent. Others present were Christy Rasso of Strand Associates, Clerk-Treasurer Linda Kuhlman and Public Works Director Leif Spilde. All present stood for the Pledge of Allegiance. No public comments.

Christy Rasso from Strand Associates explained about the liquidated damages for the S. Kerch Project that can be assessed to McGuire. Substantial completion was set as November 2 by the board, which was changed from the original date set in the contract, and the actual substantial completion date was November 14. The certificate of substantial completion has been awarded, and it is 12 days after the November 2 deadline so the board can charge up to \$12,000 for liquidated damages, which is \$1,000 per day. The purpose of charging liquidated damages is to help cover the additional effort that's required because of the extended schedule. Since the schedule was extended, Strand was required to be on site more days than originally contracted. The **amendment to the task order** is to change 500 hours of observation to 575 hours, which includes extra work that was done to help coordinate the replacement of residential driveways outside of original project; including preparing prices, measuring quantities, time, etc. Strand has exceeded has spent about 560 hours on the project so far and anticipate about 15 more hours to finish up in the spring, which includes finishing the final asphalt, final walkthrough and fixing some curb issues. **McCallum made a motion to impose liquidated damages against McGuire for 12 days at \$1,000 per day for a total of \$12,000.** Rosenow seconded. Motion carried. **Rosenow made a motion to approve Strand Amendment No. 2 to Task Order No. 18-01.** McCallum seconded. Motion carried. Smith opposed.

McCallum made a motion to approve the minutes of 2-25-19. Rosenow seconded. Motion carried.

Spilde stated he, Kuhlman and Travis Anderson from Strand met with the DNR financial representative and project manager last week. The **principal forgiveness is at \$630,577.** The DNR representative stated we can include the costs previously spent for the WQT trading, since it was part of the design for the project, and we can include other miscellaneous costs such as advertising the bid, state plan approval and attorney costs for an opinion letter that needs to be written. We can put those costs into the loan and receive principal forgiveness. That was approximately \$38,000.

Kuhlman stated Ehlers did the calculations for the loan amount if we were to use \$50,000 from the sewer connection fee fund. There would be a \$5 difference lower in levy amounts. Their recommendation is to keep the money in the sewer connection fee fund for future emergency needs. Klahn agreed. We're using about \$30,000 for sewer lining, and it doesn't take much to use that money, and instead of having to do a budget amendment to spend, it's better to have money sitting there so we don't have to come back to residents later. Spilde stated the DNR financial representative suggested keeping the funds to cover things that might break down. McCallum would like to use the sewer connection fees to pay into the equipment replacement fund until \$70,000 has been exhausted. Discussion on how to use the sewer connection fee fund. **Klahn stated the board will have a discussion at budget time about using the sewer connection fee fund.**

Possible changes were discussed but none were made to the **Notice of Sewer Rate Increase**, so Klahn instructed it be posted as written.

Public Works – Spilde explained we need to hire a third-party firm to do the soil testing during the expansion of the BBC stormwater basin. He received two bids: Giles for \$1,440 and CGC for \$1,910. McCallum questioned why the expansion is going to the south, because it is making a narrower buildable strip, instead of expanding to the west. Discussion on placement of extension of stormwater basin. **Smith made a motion to accept the Giles bid not to exceed \$1,500.** Spilde stated Giles will test the material and do a compaction test. Klahn seconded. Motion carried.

Spilde received a bid for the toolcat annual replacement. It is \$4,044 from Bobcat of Janesville. He's waiting for a second bid. This cost comes out of the Sewer Equipment Replacement Fund. Typically, it's been about \$1,000 the last few years, but there have been two increases due to the steel tariffs. He is getting a second bid. The line item in the ERF for the toolcat is just under \$6,000. **Smith made a motion to approve the upgrade of the toolcat not to exceed \$4,044.** Springer seconded. Motion carried.

Spilde stated we need to purchase a new solids meter. It is sold by very few people. The current one was purchased in 2003, and it's been fixed a few times so he's recommending replacing the whole thing. He received a price of \$2,331 from Mulcahy Shaw Water Company and we would use sewer ERF funds to pay it. **Smith made a motion to approve the low bid for a solids meter for the sewer plant of \$2,331 from Mulcahy Shaw Water.** McCallum seconded. Motion carried.

Spilde has mentioned in the past that it's time to upgrade the SCADA computer, and he'd like it in place before the new equipment is put in service. Our policy states he needs to get prices on everything over \$1,000 or can we just use the ERF. The overall cost estimate with purchasing all the software, the computer equipment and putting it all together is \$10,000-15,000. Whoever sets up plant will do the upgrade or he will in conjunction with Hach WIMS. The computer is past its life expectancy and they've already had one of the hard drives stop working. He usually orders through Dell. Smith suggested he go through state bid site. **Smith also stated if we have to do the upgrade, why don't we put that in the CWF loan as well.** Spilde and Kuhlman stated it was cut out of the bid originally. Smith suggested it is worth putting it in the loan to save the 15% or 50% principal forgiveness.

Spilde stated on April 9 there's a delegate from Costa Rica who will be in the state looking at wastewater treatment plants and will be touring ours. Roberts is going to a class for wastewater. The siren update will be this week.

Clerk's Report – At the end of February there was a **total in all accounts of \$1,720,114.36**. There were deposits of \$157,863.41, which included \$84,514.24 for the final tax collection. There were withdrawals of \$487,166.95, which included \$262,696.05 for the February tax settlement to the counties and school districts, and \$118,034.88 in debt service payments. Additional financial reports were handed out. The **auditors will be in the office** on Tuesday and Wednesday, March 12 and 13. Kuhlman spoke with the secretary-treasurer of the **Fire/EMS District** and she corrected the errors on the financials. We received a request from the **Brooklyn PTO** looking for judges for the Brooklyn Elementary Share Fair. Anyone interested, please contact them. The Green County Highway Department is having their annual **Local Government Day on April 8** in Monroe. Any board members interested in attending, please let the clerk's office know. There is no change needed to our **commercial electrical inspection ordinance** to comply with the state. Chief Engelhart provided a copy of the email exchange he had with the resident from the previous board meeting regarding the **parking on Douglas Drive**. **GCDC meeting is March 21**. Their annual meeting is April 24, if any board member is interested in attending. We received information on the **USH 14 project from STH 138 north**. The board was given a letter from **Dane County Planning & Development** regarding changes to the Town of Middleton Comprehensive Plan.

Klahn and Smith reviewed the bills. Smith questioned the Baer Insurance invoice. There is a breakdown in the report but not on the invoice. Kuhlman explained the bill is broken out by general fund, sewer and water. Smith abstained from confirming the Green County Highway Department invoice because his father signed off on picking it up. Rosenow confirmed that invoice. **Smith made a motion to approve the bills as presented.** Springer seconded. Motion carried.

Smith made a motion at 7:52 p.m. to adjourn. Springer seconded. Motion carried.

Linda Kuhlman, WCMC
Clerk-Treasurer

**Brooklyn Village Board Meeting Minutes
March 25, 2019**

The March 25, 2019 Village Board meeting of the Village of Brooklyn was called to order at 6:30 p.m. at the Brooklyn Village Hall by President Todd Klahn. Trustees present were Heather Kirkpatrick, Scott Rosenow, Brit Springer, Sue McCallum and Kyle Smith. Others present were Trenton Diehl, Larry Arndt and Sheri Arndt from Brooklyn Sno-Hornets, Steve Clark from Oregon Sno-Blazers, Lisa Lapple, Jon Dougall, Greg Hofmeister, Deana Zentner, Clerk-Treasurer Linda Kuhlman and Chief Wade Engelhart. All present stood for the Pledge of Allegiance.

Special Events – Labor Day weekend – Public Works and Police Department commented in writing regarding discussing a plan in the event of rain and Police Department staffing. Trenton Diehl stated the goal is to have an alternate parking plan in place and coordinate with the Police Department and PW to keep people out of the park. If there is damage due to the rain, they will work with Village, like they did last year, to fix the park and bring it back to the same condition, if not better. Rosenow asked about police staffing, if they contract with a private company for security. Diehl said they have contracted with JBM, but they no longer do special events. They're looking at other companies. Rosenow asked about a time for the amplification permit. Diehl stated around 11:30 the band wraps up and everyone is out by midnight. Sherri Arndt stated the amplification permit doesn't ask for a time, but on the application for the park they put 2 a.m. for cleanup purposes. Springer asked if she needs to abstain from the vote since the Sno-Hornets and Sno-Blazers donated \$1,000 to the fireworks fund. Klahn said no. **Smith made a motion to approve the special events permit for Labor Day Weekend by the Brooklyn Sno-Hornets and Oregon Sno-Blazers.** Springer seconded. Motion carried. **Smith made a motion to approve the amplification permit for Labor Day Weekend by the Brooklyn Sno-Hornets and Oregon Sno-Blazers Snowmobile Clubs.** Springer second. Motion carried.

Rezoning request and CSM approval from Lapple/Dougall - Klahn and McCallum were at the Planning & Zoning Commission meeting. There was a discussion at that meeting about the state not allowing them to bring their driveway straight out onto 92, so they will need to have a shared driveway agreement stating who's responsible for maintenance. Hofmeister will record the CSM and cite the deed restriction document. Klahn stated the Planning & Zoning recommendation is to approve the rezoning and the CSM with the easement for the driveway, shared driveway agreement, and deed restrictions. **Smith made a motion to approve the rezoning request for Lapple-Dougall for a portion of parcel 23103 130.0000 from agriculture to single-family residential with the deed restrictions and shared driveway agreement.** Springer seconded. Motion carried. **McCallum made a motion to approve the CSM for a portion of parcel 23109 130.000, a .75-acre residential lot fronting West Main Street.** Springer seconded. Motion carried.

Smith made a motion to approve the minutes of 3-11. Rosenow seconded. Motion carried. Kirkpatrick abstained. Stacey Hardy couldn't be at the meeting. **McCallum made a motion to postpone action on recreation committee membership.** Smith seconded. Motion carried.

Public Works Seasonal Employee -- Kuhlman stated that the high school student who worked last summer would come back and the position was budgeted. The board would like to get more information from Spilde. **Smith made a motion to postpone action on the Public Works summer seasonal employee.** McCallum seconded. Motion carried.

Kuhlman explained we need in the Board of Review ordinance, a section regarding keeping income and expense information of residents confidential, if asked for by the assessor in completing assessments. **McCallum made a motion to amend Article VII, Division 2, Board of Review Ordinance by adding Section 2-501 referring to the confidentiality of income and expenses provided to the assessor for assessment purposes.** Smith seconded. Motion carried.

Smith made a motion to approve Resolution 2019-02 Arbor Day Proclamation. Rosenow seconded. Motion carried. Kirkpatrick and Smith reviewed the bills. Smith asked the clerk to explore why there are tax charges on three of the Alliant Energy accounts and regarding the federal excise tax on the Spectrum account. A cover letter needs to be sent with the check to Traffic Violation and Registration Program. **Smith made a motion to approve the bills as presented with taxes removed for Alliant, checking on the Spectrum taxes and adding the cover letter for the TRVP payment.** Kirkpatrick seconded. Motion carried.

Clerk's Report – Village received **Tree City USA status for the 6th year**. **PSC is updating Rule 185**. Spilde has been following it and making comments. There are some major changes being proposed as to what is included on bills, which could affect the cost of producing bills. There are several other changes they want made. The hearing is in April, and Kuhlman will keep the board updated. **Kuhlman received her WCMC, Wisconsin Certified Municipal Clerk**. The raise discussed at budget last year will take effect. The **USDA has someone who is speaking with people**, if requested, regarding their grants and loan programs. The clerk, police chief and public works director have been looking at **leadership/supervisory courses**. Kirkpatrick said the UW course is great, and Smith stated there are grants available through the University. The board has the minutes and financial papers from the **GCDC meeting**. The annual meeting is April 24 in Monroe at Turner Hall for \$40 per person. Kirkpatrick and Springer are interested in attending. A **broadband conference** will be on May 15. **Election is April 2**. The League of Wisconsin Municipalities recently sent out a memo and draft **ordinance regarding the new small cell statute**. Planning & Zoning Commission will look at it. We will receive **50% principal forgiveness on the SCADA equipment**.

Fire/EMS District Board Meeting – McCallum stated from the meeting last week, the board received a call report for EMS and the Fire Department summary. They are still exploring combining fire and EMS. A committee was formed with three officers from each service and two commission members, Marx and O'Brien. District Secretary-treasurer is now on her own. Van Norman will come back for other processes as needed through the year. Next monthly meeting is April 17. They will have a discussion regarding developing a protocol for using electronic media.

Recreation Committee – Springer stated there is a movie night in April and May and then done until the fall. May 2 is Dime A Dip. They have two people who want to join so they would like to add more membership.

Klahn made a motion at 7:17 p.m. to convene into closed session pursuant to WI Stats 19.85(1)(c) for the purpose of considering employment, promotion, compensation or performance evaluation data of a public employee over which the governmental entity has jurisdiction or exercises responsibility (Police) and WI Stats 19.85(1)(e) deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business (Business Complex). Smith seconded. AYES – Rosenow, Smith, McCallum, Kirkpatrick, Springer and Klahn. NOES - none. **Springer made a motion at 8:40 p.m. to reconvene to open session**. Rosenow seconded. AYES – Rosenow, Smith, McCallum, Kirkpatrick, Springer and Klahn. NOES – none.

Chief's Report – Chief Engelhart stated we had 94 calls total in the village in February, 103 with traffic; three of those calls were by Green County and one by Dane County. Five open records requests. Five fire/EMS assist. Six assists w/other departments. One parking issue, 48 traffic incidents, one citation for bus passing. The new squad is complete and on the road. Waiting from Monticello PD regarding the AEDs they are purchasing, so we might get an AED for the new squad. The new portable radio was purchased and installed, and we received the \$4,000 grant from the state.

Smith made a motion to approve sending Officer Johnson to Criminal Investigation for New Detectives and Patrol Officers and for one night's stay in WI Dells, not to exceed \$125 per night, and taking the squad. Springer seconded. Motion carried.

Discussion on changing building permit ordinance to include an expiration time. **Smith made a motion to approve the changes to Ordinance Section 103-58 as written**. Klahn seconded. Motion carried.

Discussion regarding the **Shoreland-Wetland Ordinance Section 113**. McCallum explained Planning & Zoning Commission recommended approval, with the addition of the map. It will go to Public Hearing before being adopted. PZ did not recommend Chapter 114. PZ recommended approval of the changes to the **conditional use ordinance**. The PZ Commission will also be looking at the conditional uses in all zoning chapters. Klahn mentioned the timelines in the ordinance were questioned by the Commission. The suggestion is to include "this timeline could be modified under a developer's agreement," at the end of item 1.

Smith made a motion at 9:04 p.m. to adjourn. Kirkpatrick seconded. Motion carried.

Linda Kuhlman, Clerk-Treasurer

**Brooklyn Village Board Meeting Minutes
April 2, 2019**

The April 2, 2019 Village Board meeting of the Village of Brooklyn was called to order at 6:00 p.m. at the Brooklyn Village Hall by President Todd Klahn. Trustees present were Heather Kirkpatrick, Scott Rosenow, Brit Springer, Sue McCallum and Kyle Smith. Clerk-Treasurer Linda Kuhlman was also present. All present stood for the Pledge of Allegiance.

Smith made a motion at 6:01 p.m. to convene into closed session pursuant to WI Stats 19.85(1)(e) deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business (Business Complex). Kirkpatrick seconded. AYES – Rosenow, Smith, McCallum, Kirkpatrick, Springer and Klahn. NOES - none.

Smith made a motion at 6:04 p.m. to reconvene to open session. Kirkpatrick seconded. AYES – Rosenow, Smith, McCallum, Kirkpatrick, Springer and Klahn. NOES – none.

McCallum made a motion at 6:04 p.m. to adjourn. Smith seconded. Motion carried.

Linda Kuhlman
Clerk-Treasurer

.....

2019 REVALUATION – OPEN BOOK – BOARD OF REVIEW

To maintain fair and equitable assessments, the Village of Brooklyn has implemented a Market Revaluation Assessment process, meaning all assessments will be brought to market value in 2019. This ensures all property owners are paying their appropriate share of property taxes.

The last time assessments were brought to market value was five years ago in 2014 when a revaluation was completed. In that five-year time period between revaluations, the market value of residential property has changed greatly.

You may view your assessment anytime starting May 20 in the clerk’s office
Monday through Friday, 7 a.m. to 5 p.m.

Open Book, time you may talk with the assessor, will be at the clerk’s office and is
scheduled for **May 22 from noon until 3 p.m. and 4 p.m. to 7 p.m. and
again, on May 23 from 9 a.m. to noon and 1 p.m. to 3 p.m.**

Board of Review will be held on June 25 from 6 p.m. to 8 p.m.

2018 Consumer Confidence Report Data

BROOKLYN WATERWORKS, PWS ID: 12300750

Water System Information

If you would like to know more about the information contained in this report, please contact Leif Spilde at (608) 455-1842.

Opportunity for input on decisions affecting your water quality

The Village of Brooklyn Board meets the second and fourth Monday nights of each month at the village hall 6:30pm.

Health Information

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune systems disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Source(s) of Water

Source ID	Source	Depth (in feet)	Status
1	Groundwater	616	Active
2	Groundwater	670	Active

To obtain a summary of the source water assessment please contact, Leif Spilde at (608) 455-1842.

Educational Information

The sources of drinking water, both tap water and bottled water, include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally- occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses.

- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which shall provide the same protection for public health.

Definitions

Term	Definition
AL	Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
Level 1 Assessment	A Level 1 assessment is a study of the water system to identify potential problems and determine, if possible, why total coliform bacteria have been found in our water system.
Level 2 Assessment	A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine, if possible, why an E. coli MCL violation has occurred or why total coliform bacteria have been found in our water system, or both, on multiple occasions.
MCL	Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MFL	million fibers per liter
MRDL	Maximum residual disinfectant level: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
MRDLG	Maximum residual disinfectant level goal: The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
mrem/year	millirems per year (a measure of radiation absorbed by the body)
NTU	Nephelometric Turbidity Units
pCi/l	picocuries per liter (a measure of radioactivity)
ppm	parts per million, or milligrams per liter (mg/l)
ppb	parts per billion, or micrograms per liter (ug/l)
ppt	parts per trillion, or nanograms per liter
ppq	parts per quadrillion, or picograms per liter
TCR	Total Coliform Rule
TT	Treatment Technique: A required process intended to reduce the level of a contaminant in drinking water.

Detected Contaminants

Your water was tested for many contaminants last year. We are allowed to monitor for some contaminants less frequently than once a year. The following tables list only those contaminants which were detected in your water. If a contaminant was detected last year, it will appear in the following tables without a sample date. If the contaminant was not monitored last year, but was detected within the last 5 years, it will appear in the tables below along with the sample date.

Disinfection Byproducts

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2018)	Violation	Typical Source of Contaminant
HAA5 (ppb)	D1	60	60	0	0		No	By-product of drinking water chlorination
TTHM (ppb)	D1	80	0	0.0	0.0		No	By-product of drinking water chlorination

Inorganic Contaminants

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2018)	Violation	Typical Source of Contaminant
ARSENIC (ppb)		10	n/a	1	0 - 1	2/7/2017	No	Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronics production wastes
BARIUM (ppm)		2	2	0.008	0.008 - 0.008	2/7/2017	No	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
CHROMIUM (ppb)		100	100	0	0 - 0	2/7/2017	No	Discharge from steel and pulp mills; Erosion of natural deposits
FLUORIDE (ppm)		4	4	0.1	0.1 - 0.1	2/7/2017	No	Erosion of natural deposits; Water additive which promotes strong teeth; Discharge from fertilizer and aluminum factories
NICKEL (ppb)		100		1.4000	1.3000 - 1.4000	2/7/2017	No	Nickel occurs naturally in soils, ground water and surface waters and is often used in electroplating, stainless steel and alloy products.
SODIUM (ppm)		n/a	n/a	2.80	2.60 - 2.80	2/7/2017	No	n/a
THALLIUM TOTAL (ppb)		2	0.5	0.2	0.0 - 0.2	2/7/2017	No	Leaching from ore-processing sites; Discharge from electronics, glass, and drug factories

Contaminant (units)	Action Level	MCLG	90th Percentile Level Found	# of Results	Sample Date (if prior to 2018)	Violation	Typical Source of Contaminant
COPPER (ppm)	AL=1.3	1.3	0.5300	0 of 10 results were above the action level.	7/17/2017	No	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives
LEAD (ppb)	AL=15	0	1.20	0 of 10 results were above the action level.	7/17/2017	No	Corrosion of household plumbing systems; Erosion of natural deposits

Radioactive Contaminants

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2018)	Violation	Typical Source of Contaminant
RADIUM, (226 + 228) (pCi/l)		5	0	1.5	1.5	2/7/2017	No	Erosion of natural deposits

Additional Health Information

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Brooklyn Waterworks is responsible for providing high quality drinking water but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

DANE COUNTY LIBRARY SERVICE ADDITION

I'm reaching out to let you know about a resource that the Dane County Library Service has - a subscription to Reference USA. Reference USA is the number 1 source of information on businesses and people for small business owners, marketing professionals, researchers and job seekers. Reference USA helps users create marketing plans, conduct competitive analysis, raise funds and locate people. This resource is FREE to any Dane County resident who has a Dane County Library Service library card. If possible, please share this with your residents on your website and in your newsletters. The link to the resource can be found here:

<https://www.dcls.info/digitalandonlineresources> ;
scroll down and click on Reference USA.

Thanks!
Tracy Herold, Director, Dane County Library
Service

Public Works Department

**Hydrant Flushing
April 29 through May 3**

Discoloration of the water may occur. This is an unavoidable effect of flushing, with an aesthetic value only, and is not considered a health hazard. The water should clear after a short period of time.

NOTE:

**Leaves/grass are not
picked up in the spring.
You can bring them to the
compost pile at the Wastewater
Treatment Plant on S. Rutland.**

Brush pickup
Second Tuesday of every month.
Please place brush in neat piles
parallel to the curb.

News from Your Senior Center April 2019

By Rachel Brickner

Did you know there is no membership fee to “belong” to the Oregon Area Senior Center? If you live in the Village of Brooklyn, you are entitled to use the Center. Some classes (exercise for example) do have a fee associated with them, as do some services (such as foot care). However, the vast majority of what goes on at the Center is free or based on a donation.

As I write this, there is a class taking place in our main hall. Seniors are working with a librarian to learn how to use their tablets or eReaders to access public library materials. That class is free.

Seniors are also coming in to the building now for lunch. Everyone 60 and over is welcome to have lunch here, provided they make a reservation in advance. The cost of lunch is an anonymous donation. Today happens to be the day on which we celebrate the March birthdays, so there is live music and birthday cake along with the meal. There is also a drawing for ten dollars in Chamber Bucks for those who have birthdays in March. The people who have birthdays this month are encouraged not to make a donation. The Council on Aging makes a donation on their behalf, so they can enjoy a birthday meal for free.

This afternoon, a group of Euchre players will get together for a couple hours of cards. Usually you can hear their laughter throughout the Center. The fun they have is priceless, but the cost of the game? Not a dime--unless they feed the coffee kitty or choose to have a soda out of our self-serve honor system fridge.

There are a few services that we offer that are funded by Dane County (such as transportation) that we are not able to offer to people who live in Green County. However, the vast majority of what we have available is open to you regardless of which side of the county line you happen to live on. Stop in and pick up a Newsletter and see what all is going on here that you might enjoy at a VERY reasonable price.

Call us with questions at 835-5801.

Proceeds this year go to
Brooklyn PTO

**Seeking Brooklyn's Next
Dairy Queen for
2019-2020**

To be eligible, you must be in high school and have a Brooklyn address or reside in the Brooklyn Township.

The Brooklyn Dairy Queen is one of 11 queens that represent their community, Green County, and Wisconsin in the promotion of dairy products, resources, industries, tourism and people; especially the youth and youth organizations.

The community dairy queens are required to attend monthly Green County Ag Chest Meetings, give radio reports, and write newspaper articles. They attend area fairs and festivals and promote the dairy industry. They support community activities; visit many new places, meet lots of people and make lifetime friends.

Candidates should plan to attend the April 29th (Albany Lions Club) or May 13th (Monroe Justice Center) orientation meeting and the Green County Ag Chest meeting; both of which start at 5:30 pm. All community candidates will be judged on the same day, (May 19th) at the Green County Justice Center. The 2019-2020 dairy queen for each community will not be announced until the crowning event in their community.

The Brooklyn Community Queen crowning will be Thursday, June 6th following the Brooklyn United Methodist Church Ice Cream Social.

Being a Dairy Queen is a rewarding experience that will be treasured forever. If you wish to run for Brooklyn Community Dairy Queen or have questions, please contact your Community Queen Chairperson, Jillian Malkow (608) 513-3744 or jillian.mcneely5@gmail.com. If you wish to learn more about the queen program or the Green County Ag Chest please go the www.greencountyagchest.com.
